Meet Dave Eddie Murphy

Here's a review of the movie website for the new movie Meet Dave! Top things to do on the official Meet Dave site:

1. Check the map to see if you're in Dave's Head! Dave's head is stopping in cities around the country - including Dallas on June 18, Atlanta on June 4, Detroit on June 27, Washington DC on June 29 - 30, Philadelphia on July 2, and New York City on July 3 - 5. If you have a chance, find him, and get your picture taken in his head!
2. Play the Meet Dave Movie Games, including Nasal Escape, Dave Overload (use tools to fix Dave's malfunctions in different areas of his body), and Pinball (my favorite and probably the most fun game of the three!).
3. Haven't seen a preview or trailer on the TV for Meet Dave? Well, you can check out the video clips on the site.
4. Those 2 little guys that roam around the screen on the bottom and belying from the top? Click your mouse on them and you can move them around! The guy on the bottom you can even lift up and drop down!
5. Before you leave, pick up a Meet Dave movie download! Grab a Meet Dave computer desktop wallpaper, screensaver, or Meet Dave AIM / Buddy Icon!!

Last word on this website: It does have some fun stuff, but could be better. For example, the image gallery, info about the story, and Meet the Crew (Eddie Murphy) section are still listed as Coming Soon...and the movie opens in only a few weeks! Still worth a visit however at least for the games section. Enjoy!
