American Teen Soundtrack and Facebook

The new movie website for the upcoming movie American Teen reviewed here! Here are the top things to do on this new movie website:

1. Listen to songs from the American Teen movie soundtrack! Just click on the soundtrack link to open the media player and play the movie songs including The Ting Tings, Mgmt, Does It Offend You, Yeah?, and Black Kids. Click a button to get the code to share or embed it into your myspace, facebook, or blog!
2. Add American Teen to your Facebook friends! The link is easily accessible on the movie website.
3. Read about the movie (a Sundance Film Festival hit similar to the Breakfast Club about five teenagers - the jock, the princess, the geek, the heart-throb, and the rebel), then watch the American Teen Trailer! The trailers available on the website are kind of neat - you can pick the different teens in the movie - Hannah, Mitch, Megan, Colin and Jake - and watch the trailer particular to them!

Sorry, no AIM / Buddy Icons available on this site.

Best Movie Website!
