### **The Rocker - I Only Drum Naked**

The upcoming new movie The Rocker has a movie website with a few things to do. FYI - the website I Only Drum Naked ([ionlydrumnaked.com](http://ionlydrumnaked.com)) also goes straight to The Rocker Movie website! Anyway, here are the top things to do on the site:

1. Check out the TV Toss Game! Now, apparently it needs a flash player to run, so would not run on my computer - hopefully you can get it up and running and enjoy the game!
2. While you're surfing the site, in the lower right you have controls to The Rocker Soundtrack - flip through three songs for the one you want to hear most while you're on the site - including Tomorrow Never Comes (Teddy Geiger), Bitter (Teddy Geiger), and Promised Land (Vesuvius).
3. Check out the standard movie trailer, The Rocker Image Gallery, and read the movie synopses - The Rocker is about Robert "Fish" Fishman, a drummer for an eighties band that's kicked out of his band, then rejoins his nephews band twenty years later.
4. You'll find links to join The Rocker on Myspace and Facebook! Go on, by a friend of The Rocker!
5. Before you leave, don't forget to grab your movie download! Downloads for the movie include FREE mobile ringtones with quotes from The Rocker Movie (they tell you on the site what to text and where, and let you listen to a sample), you'll also find a screensave, The Rocker AIM / Buddy Icons, and a selection of The Rocker movie wallpapers.
