Take with Minnie Driver

The new movie Take with Minnie Driver and Jeremy Renner will be out in limited theaters soon! Here's a quick review of the best things to do on this new movie website!

1. Become a friend of the movie Take by joining the Take myspace and facebook pages!
2. Watch the Take movie trailer!

Sorry, that's about all there is to do on the movie website - no AIM / Buddy icons to download, no wallpaper. Not even a movie synopses! Maybe it's because the movie only opens in limited release. I don't know.
