Kung Fu Panda - Widget, Games, Activity Sheets!

The new movie website for Kung Fu Panda....should you visit? YES! There's so much to do I don't know where to start..here are the basics of what you'll find:

1. the first thing to check out is Po's Kung Fu Panda Online Multiplayer Game. Click the link from the main page and you can either REDEEM POINT and play, or just play the demo if you don't have any points. To get points, you can play Mah Jong Mayhem or Po's Awesome Appetite - lots of fun! There are other games inside the website including Kung Fu Panda Slider Puzzles, Kung Fu Panda Throwing Stars, and Kung Fu Panda Punching Dummy Challenge.
2. The main website also offers a link for you to embed the Kung Fu Panda widget. Get the code and add it!
3. Once you enter the website itself, you get a pretty cool intro, then a main page that's very interactive. Use your mouse to scroll left and right from scene to scene, where pictures of characters from the movie are stalled in mid-action. Click on them to find out who they are and get Kung Fu Movie Wallpaper, Kung Fu Panda AIM / Buddy Icons, screensavers, and even a movie email signature specific to the Kung Fu character you clicked on!! I haven't seen the email signature before on any website, pretty cool! They give you directions on how to add it on, and basically you get an animated icon at the bottom of emails that you send! There are other fun things to check out when you click on the movie characters, such as personality polls, find out about their fighting styles, and the stories behind each of these Kung Fu Masters. Characters include Po (click on him to grab a Po emoticon!), Master Tigress, Master Monkey, Master Crane, Master Viper, Master Mantis, Master Shifu, and Tai Lung.
4. Click on the link at the bottom of the screen to see Kung Fu Panda activities which include, coloring pages, Kung Fu Activity Sheets, and Activities such as things you can make like - Backpack Tags, Takeout Boxes, Lunchbox notes, puzzles, 3D characters, and embroidery.
5. Of course there are also plenty of trailers to view, Dragon News to read, and don't forget to explore the Kung Fu world including The Training Hall, the Jade Palace, the Palace Arena, Po's Room and the Noodle Shop, the Chor Ghom Prison, and the Sacred Peach Tree of Heavenly Wisdom.

In summary - visit this site and have fun! It's a great site!!

The Strangers Movie - Personalized Video!

The top reason to visit the movie website for the new horror movie *The Strangers*: to get a personalized Strangers video! Very cool and lots of fun, personalize the video by entering in some basic information then play it - you'll get a link to send it to your friends at the end. Also, enter to win a private screening of the movie for you and 100 of your friends! Those are the two best reasons to visit this site.

Another kind of cool feature of the website is the "experience" part of the site. By clicking on "Enter the Strangers Experience" link, you'll get to use your mouse to roam around the house. As you enter the hallway, the door, etc. clips from the movie show you what happens in the area. Scary and fun way to explore! Other features of *The Strangers* movie website are pretty standard, and include Aim / Buddy Icons, Strangers movie wallpapers, gallery of pics from the movie, trailers, and of course a movie synopsis. The movie is supposedly based on a true story. The movie is about the Hoyt family vacation in 2005, and it stars Liv Tyler and Scott Speedman.

You Don't Mess With the Zohan WWE Summerslam and Game!

The new movie You Don't Mess with the Zohan with Adam Sandler looks very unusual - so be prepared for a movie website to match! The Zohan movie website has a lot of cool features that make it worth visiting - the first is a WEIRD game called This Foot is For You. In the Zohan game, you control a figure with Adam Sandler's head that kicks an opponent - kind of fun! There are also lots of downloads available at the top of the webpage, including You Don't Mess with the Zohan movie screensaver, Zohan AIM / Buddy Icons, and movie wallpaper. Image gallery, facebook, and Zohan myspace links are also available.

ALSO, while at the movie website, click on the PROMOTIONS link to enter to win a trip to the WWE Summerslam 2008. While you're surfing around, click on Zohan House, Rafaela's Salon, Hamdi's Kitchen, Downtown New York, Michael's apartment, or Hacky Sack Tournament to read more about the location / character, download link-specific wallpaper, aim icons, and even hear some stuff! Lots of fun to keep you occupied for a while

Sex and the City movie - Match Your Man

The best part of the movie website for the new movie Sex and the City, is the "Match Your Man" feature. Click on the link to get a quiz to find out which of the men on the Sex and the City movie you're most compatible with! The 15 question quiz asks you questions like what first attracts you? what physical features you like, and what outfits you prefer. At the end, you'll find out which character you're most compatible with!

Other good parts of the website include the "Save the date" link taht takes you to the Sex and the City movie widget countdown that you can get the code for to embed and post on your myspace, facebook, or webpage. If you want to find out info about what's going on with the promotion and the stars of the movie, check out the "Blog" link. Finally don't foget to download your AOL / Aim / Buddy Icons, computer desktop wallpaper, or Sex and the City screensaver. Before you leave find out what the movie's about (Carrie Bradshaw - Sarah Jessica Parker - reprieving her role as a fashion-obsessed single woman in New York City along with her friends Miranda, Charlotte, Cynthia, and Samantha). Check out the movie gallery and trailers to find out what it's all about!

War, Inc movie with John Cusack

OK, so every now and then I find a movie website that is just NOT up to par. Unfortunately, that movie website is War, Inc! NOT EVEN A SINGLE DOWNLOAD FOR WAR, INC!! No Aim icons, no desktop wallpapers, no screensavers. That stinks. The only reason to visit is to find out about the movie - a political satire about an American private corporation run by a former Vice President (Dan Akroyd). The movie also stars Hilary Duff, John Cusack, Joan Cusack, and Marisa Tomei. You can see the War, Inc Trailer or movie stills at the website as well, but that's it!! Nothing else! Even the link that says "Official War, Inc Myspace page" isn't quite right - it goes to John Cusack's Myspace page! Not the movie's! Sorry, not much at this site, don't waste your time. The movie might be good though. You'd have to check the trailer out.

Forgetting Sarah Marshall Tabloid & Hawaiian Name Generator

The movie website for the new movie Forgetting Sarah Marshall is kind of fun! Some of the best parts: on the main page click on "Tips to get over being dumped" to get video clips from the movie of what the guy does to get over Sarah Marshall - main tip: drink lots of fluids! Once you actually Enter The Site, there's another cool feature which is the "Make Your Own Tabloid" link. You'll get to upload a picture of yourself (either girl or guy), and it superimposes your face on a tabloid! You can even change the tabloid headlines! Very cool! And there is even a THIRD very cool feature of the Forgetting Sarah Marshall website - the Hawaiian Name Generator!! You actually type in your name and it tells you what it would be in Hawaii! The link is at the bottom of the page, it says "Find out what your Hawaiin name is" just click on it to get your new name!

All in all, this is a pretty fun website with lots to do, be sure to visit. Before you leave, don't forget to find out about the movie (about Peter Bretter, a musician, who is dumped by his television star girlfriend Sarah Marshall). Grab something from the downloads page before leaving - a computer desktop wallpaper, or a Sarah Marshall Buddy / AIM Icon, or even a screensaver!

Speed Racer The Movie Mach 5 Coloring Book!

The movie website for the new movie Speed Racer has a few fun things that are worth a visit. The first, is that they have designed a very cool way to navigate throughout the website. Click on "Enter The Site", then click on the LEFT hand link and you'll go to an animated page showing yourself behind the dash of a racecar. Use your mouse to navigate around the highway and click on billboards that you pass to learn about Trixie, Pops Racer, the Mach5, and other race cars on the movie synopses, access to Speed Racer AIM an Buddy Icons, movie desktop wallpaper, and even cooler - Speed Racer Ipod wallpaper! There's also a link to download a "Speed Racer" coloring book where your kids can color in different race cars! Pretty fuN! The only thing this site is missing is a game - there is a "Play the Game" link, however it takes you to info about the Speed Racer Videogames for Wii and Nintendo - not to actually play a game. All in all, an ok site to send your kids to - especially for the coloring book. Don't forget to join the Speed Racer Facebook page before leaving!

Iron Man Movie with Robert Downey Jr.

The movie website for the new movie Iron Man is pretty basic - but with a twist or two. The first twist that is kind of cool, is that you can change the "background" or "skin" of the website. So, you're at the website, don't like the Iron Man picture you see? Just click on "M1", "M2", or "M3", and you can change the website "skin". Another cool part of the Iron Man website is that if you click on "360" you can get a 360 degree image of Iron Man in different stages. There are 3 360 images to check out. Pretty neat! Another neat thing that the website did is they are pretty interactive with Iron Man Fan Art - click on the list and you go to a page displaying hundreds of Iron Man Fan Art images. Pretty Nice.

The rest of the website is pretty basic - you can learn about the movie...for those who don't know, it's about Tony Stark (aka Iron Man), a billionaire playboy industrialist inventor who is kidnapped and builds a weapon. He builds a suit-of-armor and uses it to escape his captivity. The movie stars Robert Downey Jr, Terrence Howard (as Rhodey), Jeff Bridges (as Obadiah Stane), and Gwyneth Paltrow (as Pepper Potts). Check out the links on the Iron Man website for full details. Before you leave the website, stop by the downloads section and grab a screensaver, Ironman Desktop, or Iron Man Buddy / Aim Icons.

New Indiana Jones Kingdom of the Crystal Skull movie

I love Indiana Jones and I love Harrison Ford, so I was expecting a lot from the new Indiana Jones, Kingdom of the Crystal Skull movie website...here's the low-down on what to expect when visiting the movie website: There are lots of downloads to choose from - almost 4 dozen Indiana Jones wallpapers to dress up your computer, more than a dozen Indiana Jones Buddy / AIM Icons, and plenty of movie posters from advertisements throughout the world. The videos link doesn't just give you clips of the movie, but also inside clips of the making of Indiana Jones, including clips from filming in New Haven, CT, clips on Indy's hat and hacket, on Indiana's home, and tons more! Also, for those who can't get enough, visit the gallery has some great movie stills.

Now onto the more interesting parts of the website - if you click on the "community" link, you'll find an Indiana Jones widget that you can post on your webpage or myspace page, giving you a countdown to the movie premiere..you'll also find page skins and site banners. An Indiana Jones Forum is still listed as "Coming Soon" unfortunately - too bad, I bet it could have been big!! There's also a link for "Marshall College" - the home of Professor Jones - unfortunately it too is listed as "Coming Soon". My overall review of the Indiana Jones Crystal Skull website is that it's OK...it's DEFINITELY worth a visit for all the Indiana Jones fans out there - because of all the great videos and galleries, but there's just not a lot of interaction for the fans. The best part of the site? Click on the "Indy Store" to buy some Indiana Jones gear. Fans - don't forget to click on "Adventures" to visit the websites of the other Indiana Jones movies - Raiders of the Lost Ark, The Temple of Doom, and The Last Crusade. Finally, I don't see it listed on the Crystal Skull movie website, but there is also an Indiana Jones myspace page..don't forget to make Indy your friend!
