The Mummy Tomb of the Dragon Emperor Cast Synopses

Let's talk about the movie website for the new movie The Mummy: Tomb of the Dragon Emperor! What is there to do on the movie website and is it worth your time for a visit? Here's the review of the top things to do on The Mummy site:

1. The best part of the site is The Mummy movie downloads - grab a movie poster, screensaver, or Mummy movie wallpaper. Don't forget an adventurous Mummy movie AIM / Buddy Icon!
2. Another good part of the site looks like it's still coming...the links are listed as "Coming Soon" - a link to the Timeline of China and Chariot Chase (which looks like it will be a game). At the time of this writing, these links are not yet released, hopefully they'll be released soon, so check back!
3. Read about the cast (including Jet Li, Brendan Fraser, John Hannah, Luke Ford, and Maria Bello) movie and watch the trailer- there's been alot of speculation on if this movie will be good or not, especially since it's been an action-adventure summer what with Indiana Jones and the Kingdom of the Crystal Skull, so you'll just have to see. The movie stars some good actors - Brendan Fraser and Jet Li, and is third in the Mummy series after the Mummy and the Mummy Returns. Watch the trailer and read the movie synopses to see if you're going to like this chapter in explorer Rick O'Connell's adventures.

Overall review: Not enough here and up and running at this point, but do stop by the site to grab a Mummy download!

1. The best part of the movie website is the Chimp Yourself! You choose your head, eyes, ears, mouth, and accessories and become a chimp!
2. check out the Chimp Decoder! There are a few different phrases to choose from - hear them in chimp, then send them to a friend!

There's also a word search to find! Clicking on the overturned can will pull up a Fruitie Tootie recipe, and click on the Bananas to unlock the Dole Secret. You'll be asked for a secret code...the code is: I love bananas . When you unlock the code, you'll get answers to the lunch trayliner.

Meet Dave Eddie Murphy

Here's a review of the movie website for the new movie Meet Dave! Top things to do on the official Meet Dave site:

1. Check the map to see if you're in Dave's Head! Dave's head is stopping in cities around the country - including Dallas on June 18, Atlanta on June 4, Detroit on June 27, Washington DC on June 29 - 30, Philadelphia on July 2, and New York City on July 3 - 5. If you have a chance, find him, and get your picture taken in his head!
2. Play the Meet Dave Movie Games, including Nasal Escape, Dave Overload (use tools to fix Dave's malfunctions in different areas of his body), and Pinball (my favorite and probably the most fun game of the three!).
3. Haven't seen a preview or trailer on the TV for Meet Dave? Well, you can check out the video clips on the site.
4. Those 2 little guys that roam around the screen on the bottom and belying from the top? Click your mouse on them and you can move them around! The guy on the bottom you can even lift up and drop down!
5. Before you leave, pick up a Meet Dave movie download! Grab a Meet Dave computer desktop wallpaper, screensaver, or Meet Dave AIM / Buddy Icon!!

Last word on this website: It does have some fun stuff, but could be better. For example, the image gallery, info about the story, and Meet the Crew (Eddie Murphy) section are still listed as Coming Soon...and the movie opens in only a few weeks! Still worth a visit however at least for the games section. Enjoy!

Hellboy 2: The Golden Army Actors, Trailer, Forum

Which actor plays Hellboy in the new movie Hellboy 2: The Golden Army? Unfortunately, the website doesn't say - it's a coming soon link! (The answer is Ron Perlman plays Hellboy, Luke Goss plays the villain). Well enough trivia, here's the scoop on the movie website for the new movie Hellboy 2: The Golden Army - it's not so great!! It looks like there are a lot of things planned for the site, but the webmasters let it stagnate and never finished the site - all the best links including Explore the BPad, The Golden Army Chamber, Creature Anatomy, and Whack-A-Troll (this sounds fun!) are ALL listed as "Coming Soon". The movie will be out in less than a month! It should be up and running by now so we can have some fun! Unfortunately it's not. Well then, want to know what you'll find on the movie website? Not a lot. Here's what's there...

1. Info on the Movie Synopses (The truce between the humans and the fantastic is broken. A ruthless leader threatens, and the team from the Bureau for Paranormal Research and Defense team together. The movie stars Salma Blair as the pyrokinetic Liz, Aloe as the aquatic empath, and the protoplasmic mystic Johann the BPRD.)
2. A Hellboy 2 messageboard / forum for fans to join together to talk about the movie.
3. The Hellboy 2 movie trailer and movie stills.
- and 4. Movie Wallpaper, Hellboy 2 Posters, Hellboy computer screensavers, desktop wallpapers, and Hellboy 2 AIM / Buddy Icons. That's all you'll find on this movie website!

The movie website for the new movie The Dark Knight!

19 reasons to love the Dark Knight official website:

1. One Dark Knight Batman Screen saver to enjoy on your pc or mac day after day, night after knight.
2. Four awesome batman aim icons to show off to your friends while chatting it up on aim.
3. Five magnificent Batman and Joker Dark Knight wallpapers! Only problem is there is only 1 wall and 5 wallpapers! What ever will we do? Ahh, yes! Rotate 1 for each weekday. YES!
4. Nine Batman and Joker Dark Knight movie posters! Sooo many to choose from, sooo little time.

So, that's 1-4 and if you total up 1, 4, 5, and 9, you get 19! 19 Reasons to love The Dark Knight website.

Also, read the synopsis, watch a trailer, and view the photo gallery to further you Batman fixation.

Unfortunately for Batman we have strict criteria for reviewing best movie websites and even my love for the Batman cannot persuade the scale. They have the great movie (well, we'll see in July), but the site is not quite up to standards. Maybe Batman can talk these guys into at the least tossing us a countdown to spice it up!

Hancock So-Called Heroics Games!

The movie website for the new movie Hancock is very interactive and has some cool stuff to do. The first thing I want to make note of is that when you enter the site, it's like a news report - very cool, and very interesting, telling you who Hancock is...it's a little different from other sites, and grabbed my attention right away. Now, on to the best things to do on the website:

first stop is to check out the link called "Hancock's So-Called Heroics", to find some Hancock games - the games include Crisis City (where you control Hancock who flies around trying to prevent crises in the city), Urban Rescue (where you move Hancock around the city punching out criminals), and Fight and Flight (not available at the time of this writing).

Pretty fun games, just be careful about what you run into because too many bumps into buildings and your financial toll will be so high you'll lose the game! Next, try checking out the link "Hancock Was Here" to go to a site with news articles and videos about where Hancock has been seen - saving the city whether we want him to or not!

Another cool link is the "Guess the Financial Toll" link where you'll find another game to play...you're presented with 4 scenarios, and your job is to view video footage of Hancock in action and guess how much it would cost to fix what he did...little factoids are also given for your entertainment.

Finally, don't forget to visit the image gallery, and read about the film (about a superhero named Hancock (Will Smith) who is edgy and always causes lots of damage when he tries his heroics.

Before you leave the site, don't forget to stop by and pick up an AIM / Buddy Icon and download a screensaver or Hancock desktop wallpaper. Then see the movie!

The Incredible Hulk - Hulk Smash Game!

The website for the new Marvel super hero movie the Incredible Hulk has a few offerings...here are some of the best things you'll find to occupy yourself while on the Hulk movie website:

First, you'll find an Incredible Hulk Widget! If you like to add stuff to your Myspace page, Facebook page, or webpage, you'll want to grab this widget - code supplied so you can easily embed it. The next best thing to do on this website is play the Hulk Smash game. Click on the "quick links" to get to the game. The premise: General Ross has sent his troops to capture the Hulk as the Hulk, you'll do a lot of super smashing to destroy as much of the city as possible - your goal - to destroy all enemies on the ground before time's up. Tips: pay attention on how to enter super rage mode....I found it kind of confusing to learn how to smash and destroy things at first, but you'll catch on quickly, sometimes it takes a few smashes to destroy something. Fun game!!

The rest of the stuff on the website is pretty standard fare.. you'll find a pretty cool graphics page on the main page. Click on the "Navigate" link, and you'll find a link to the story, an image gallery featuring movie stills from the Hulk movie, Hulk movie trailer, and downloads including Hulk AIM / Buddy Icons, and computer, desktop wallpaper. You can also learn about the characters, including General Ross, Betty Ross (Liv Tyler), Bruce Banner (Edward Norton), Emil Blonsky, Abomination, and the Incredible Hulk himself.

The Happening Movie - Friday the 13th!

Friday the 13th M Night Shyamalan has a new movie coming out for us - The Happening! It's a thriller about a family on the run from....some kind of horror I imagine. But No, I'm not going to tell you what the movie is about...I'm here to review the movie website! So let's take a look at it....hover over the word "Navigation" to see what your options are...unfortunately there isn't alot...here's what you have:

1. Filmmakers - you guessed it, learn about the filmmakers, their biographies, and how they got started, including M Night Shyamalan, Barry Mendel, Sam Mercer, and Gary Barber among many others.
2. Check out the movie gallery of images and photo stills
3. Read about the cast: Mark Wahlberg (as Elliot Moore), Zooey Deschanel (as Alma Moore), and Betty Buckley (as Mrs. Jones).
4. View some trailers and tv spots from the new movie. There are 2 trailers you can view from the main page - the regular The Happening trailer, and a "Red Band" trailer. For the Red Band trailer you have to enter your birthdate....I'll let you decide if it was worth it...
5. check out the production notes
6. read a movie synopsis.

Sorry, I told you there wasn't much on this website; hopefully they spent all their creative energy on the movie instead. Before you leave, don't forget to grab movie desktop wallpaper or an AIM / Buddy Icon!
